

Smart Boards in the language classroom

Dolores Barbazan, Francisco Meizoso, and Simon Zuberek

April 12th, 2019

Do you use a smart board or a smart screen in your classroom?

Why do you use it? Why don't you use it?

Don't have one

I don't use it for real, just as a projector :|

Don't seem to manage it when I have it

Useful for showing grammar points

classrooms don't have smartboard/smartscreen

Don't know how

I have it and I Don't use it because I need to learn how it would enrich my classes

Because it does things when I touch it

Because there are no smart boards in most classrooms

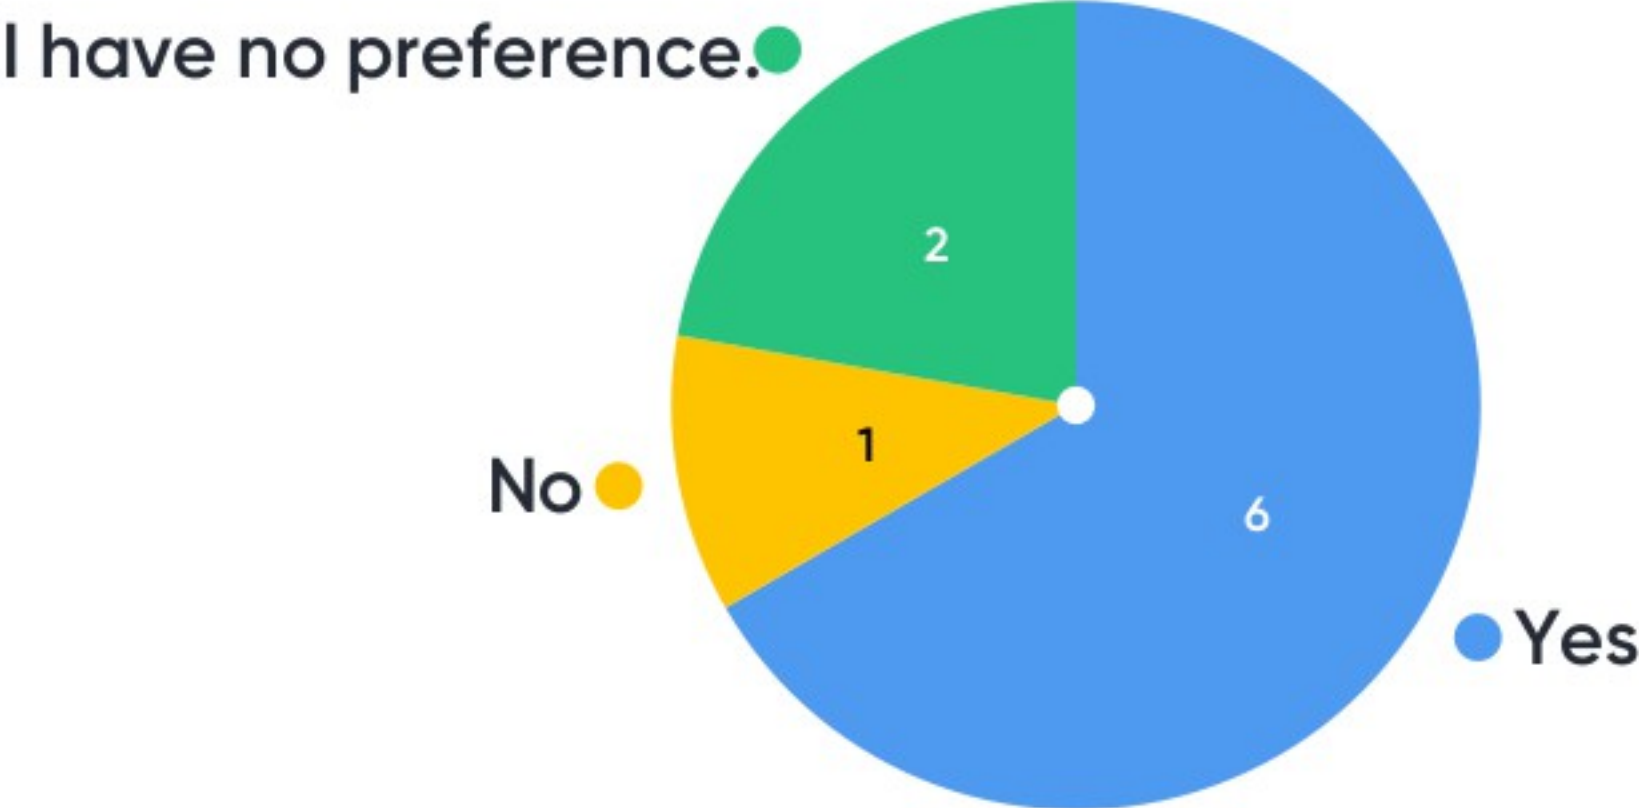

Why do you use it? Why don't you use it?

Not trained to use; don't understand benefits over traditional chalk board

Given the opportunity, would you prefer to teach in a Smart Classroom?

Thank you!

Any questions?
