

## SPANISH UN 2103. HEALTH-RELATED TOPICS IN THE SPANISH-SPEAKING WORLD

This is an intensive course in Spanish language communicative competence with an emphasis on oral interaction, reading, writing, and culture at an Intermediate II level with focus on health-related topics in the Spanish-speaking world.

This interdisciplinary course analyzes the intersection between these two disciplines through the study of health-related topics in Iberian and Latin American cultural expressions (literature, film, documentaries) in order to explore new critical perspectives across both domains. Students will learn health-related vocabulary and usage-based grammar in Spanish. Students will develop a cultural understanding of medicine, illness, and treatment in the Spanish-speaking world.

Finally, students will be able to carry out specific collaborative tasks in Spanish with the aim of integrating language, culture, and health.

THIS COURSE FULFILLS THE LAST SEMESTER OF THE FOREIGN LANGUAGE REQUIREMENT, AND IS EQUIVALENT TO SPANISH UN 2102, INTERMEDIATE SPANISH II

Students must have taken SPAN UN 2101 (Intermediate Spanish I) or have obtained a score of 380-449 on the Department's placement exam to take this course.
