Audience

Who are you? What you want the Al tool to know about you?

Context

What is the purpose of this interaction? What relevant information should the Al tool have?

Tweaks

After the initial output, what changes do you want/ need to make?

ACTSET:
Prompt engineering
for language
teachers

Task

What do you want the Al tool to do?

Evaluate

6

What gaps exist between my vision and the output? Is the output linguistically, pedagogically, and ethically sound? What should I change myself, and what can I prompt the AI to change?

5 4

Specifics

Exactly what features do you want (or not) in the response?
